HOW TO READ THE RATINGS

Business schools in West India have been placed in five categories — SL, A1, A2, A3 and A4. Leaving aside the SL (super league) category, two to three categories from the original all-India ranking have been clubbed together to arrive at the West India classification.

For instance, A1 in the West India ranking has A1 and A2 institutes from the all-India ranking. Similarly, A2 in the West India ranking includes institutes from West India

earlier put in A3, A4 and A5 in the all-India ranking, and so on. The ranking is no longer alphabetical.

The survey for the rankings uses a combination approach, merging the best of both worlds — self-audit by the institutes, and an external rating by industry. The scores given in the table represent percentile scores. Scores have been allotted on two broad parameters:

- Audit scores under six parameters
- Perception scores

Each parameter has been assigned a different weight according to the directions of an expert committee. The final score is therefore a weighted aggregate and not a simple aggregate. The final scores are used to put the B-schools in different categories. No mathematical operations like addition or subtraction can be done on these scores.

The grouping in each category is on the basis of absolute scores and not percentile scores.

* The all-India rankings were published in the May 2011 issue of Indian Management.

INSTITUTE	OVERALL PERCENTILE	AUDIT PERCENTILE	PERCEPTION PERCENTILE	AUDIT SPLIT
