FACULTY DEVELOPMENT PROGRAM

On 17th July, 2018, FDP was conducted by Dr. Prachi Sharma for all the Faculty members of Pioneer Institute. At Pioneer Institute, each faculty member is encouraged to attend training programmes which would lead to skill building and enhancement in their chosen area of specialization. Further, the senior faculty members who have proven expertise in their subjects are encouraged to offer various training programmes/workshop with the objective of disseminating knowledge to the larger academic and practitioner community alike. Faculty Development Program aims to strengthen teaching and research skills in the contemporary and emerging areas of management and to expose participants to recent developments in teaching and research methods. The program uncovers case based methods of teaching and helps the participants in developing the skills in preparing cases to be used for their classes. Faculty Development is initiated through a competitive edge faculty programme where they would initiate and inculcate their experiences and engage in the process of learn new modes and become academically equipped.

Dr. Prachi took FDP on the topic “Understanding Student Psychology” Today’s educational system is highly complex. There is no single learning approach that works for everyone.

That’s why psychologists working in the field of education are focused on identifying and studying learning methods to better understand how people absorb and retain new information.

Educational psychologists apply theories of human development to understand individual learning and inform the instructional process. While interaction with teachers and students in school settings is an important part of their work, it isn’t the only facet of the job. Learning is a lifelong endeavor. People don’t only learn at school, they learn at work, in social situations and even doing simple tasks like household chores or running errands. Psychologists working in this subfield examine how people learn in a variety of settings to identify approaches and strategies to make learning more effective.

CONFERENCE

Youth Conference

The 23rd National Youth Conference was held in the Institute on 24th September 2018 on the theme “Entrepreneurship”. There were many student participants from various colleges of Indore. It started at 9:30 am in the morning with the Inaugural Ceremony and followed by it was the Panel Discussion for the students.

The inaugural ceremony had Mr. Sunil Mata, Dr Vishnu Mishra and Mr. S K Nuwal as the speakers and the guests for the conference.

The first speaker of the inaugural ceremony was Dr CA Prashant Jain Sir. He highlighted the significance of youth and the ideas which can be given to their thoughts. This is also about the various opportunities being given to the youth. There are two types of entrepreneurs – one who is a born entrepreneur and other being the second category of people who leave their jobs and become entrepreneurs. Further, he even stressed upon few qualities of the entrepreneur. These were an entrepreneur should do all sorts of work, an entrepreneur should know the customer very well, there should be enough focus which should be laid upon the care of the customer and identifying the right decision maker. An entrepreneur should be capable of identifying and understanding the customer well and should handle the marketing aspects very carefully. Like marketing of the goods, product pricing and discounting,

adoption of policies, changing the marketing strategies and adapting accordingly. There is a lot of risk which is involved in the same and hence efforts should be put in the direction of working towards uncertainties. Since business is full of uncertainties an entrepreneur should work upon removing those and remove the constraint of time also. There have to be numerous small and big steps which need to be taken up from time to time in order to modify or support the effective functioning of organizations. Any change in product modification is essential to make way for rejecting a wrong decision and to stay in the market. Further, there has to be constant evaluation which should be done in order to understand the position of an entrepreneur in the market.

Ms Kumkum Sinha the coordinator of the conference also spoke on the various aspects related to the conference in her welcome note. She said that the conference is designed to explore the various areas related to entrepreneurship and where youth can prove to an important part. The planning and execution to be done by an entrepreneur should be such that it provides new ideas, helps in networking and the overall development of an entrepreneur. When a person discovers their natural talent, they are like a fast moving freight train, there is no stopping them. They will find a way to develop their talent, with or without support from society.

The founder chairman of Pioneer Group Dr CA P. K Jain Sir also addressed the gathering and spoke on the matter of life and entrepreneurship. He said life is all making changes as per the needs and change in circumstances. There is nothing like a first or a second choice, it is only about the only option which is irreversible process and nothing can be done to change it. He further said that the young blood should not be discouraged rather they should be encouraged in order to win the battle and prevent them from withdrawing in life. Their energy should be given the right direction and in order to make the business successful they should be encouraged to give a solution to the problem. This could be done by encouraging them towards idea generation, trust and dependency. He quoted “Motivation is education. Education without motivation kills ambition, the primary ingredient for a productive lifestyle.” Entrepreneurship is a result of ones willpower and not just money. It is the willpower and the ability to take risks which makes one go to various heights in life. Once as an entrepreneur your goal is decided you should go ahead with it and not move backwards, an entrepreneur should believe in himself and success will be his. At times in life one needs to motivate oneself again and again and in order to be successful one should love the work done by himself. In the place of sale one should focus upon delivering and the market prices and practices prevalent in the market provide challenges, employees should be encouraged towards working in the interest of the companies. Also, the young students should focus on making themselves employable in nature in all best possible manners. All the complaints should be properly handled and the system of employee feedback should be very trustworthy. Also, as an entrepreneur it is very important that one should keep oneself healthy and capable in all manners. Hence in order or deliver the best one has to be in such a way that no replacement can be found.

Mr. Sunil Mata spoke on the origin of his business of laundry named Cleanmax Laundro. He highlighted the importance of corporate social responsibility and shared his own experience of using recyclable stuff like paper bags. He further emphasized on the importance of motivation and how much as an entrepreneur it is important. The subject "motivation" could fill whole libraries. It is just a small insight into the subject and a few thoughts about who and how and through whom and what a person can be motivated. We must have a dream that motivates us. No one has ever achieved anything without a dream attached to a burning desire. We must learn how-to-learn. In school, we learn how to memorize, and be taught. Learning how to learn frees our dependency on others for knowledge. We must learn from failure and learn how to bounce back from failure. No one ever succeed without failure. In the classroom, failure is a no-no.

Dr Vishnu Mishra the next speaker also spoke on the matter of entrepreneurship and the demographic dividend. The concept is based on recognizing natural talents, intellectual, artistic, technical, dexterous, and recognizing the need for non-competitive education to address these talents. For example, everyone in a classroom does not have artist ability. Different abilities need to be recognized. In non-competitive learning environment, anyone can excel. We must have a dream that motivates us. No one has ever achieved anything without a dream attached to a burning desire. We must learn how-to-learn. In school, we learn how to memorize, and be taught. Learning how to learn frees our dependency on others for knowledge. We must learn from failure and learn how to bounce back from failure. No one ever succeed without failure. In the classroom, failure is a no-no.

Mr. S K Nuwal spoke on the journey from job to entrepreneurship. Also, the dependency kills motivation. Long term dependency on parents, the government or others, takes away the ambition to become self-reliance. He further said that when you discover your natural talent, barriers to motivation and learning will evaporate. Super achievers learned how to learn in natural learning environments. They are processors of knowledge that is based on a burning desire that motivates them. The typical classroom is a collector of knowledge with limited motivation. Society says these people should never have found success. What do these self-made millionaires have that many highly educated people don't have? Why doesn't the education system learn and adapt the secrets of these people.

Dr Sandeep Atre founder of Edgemakers spoke on the matter of knowledge and the depth of knowledge. He further elaborated upon the point saying that in a war the survival of the fittest is important. Also, the depth of knowledge determines the height of success. Patience is very essential for the overall success of a person. Patience is the ability to endure difficult circumstances such as perseverance in the face of delay; tolerance of provocation without responding in annoyance/anger; or forbearance when under strain, especially when faced with longer-term difficulties. Patience is the level of endurance one can have before negativity. Education is the base which

provides a complete thinking and makes a complete individual. A passion is what you are willing to pay for. Details have to be taken as it is, there is no substitute to it and the biggest lie is the one we say to ourselves. As an inquisitive person one should keep asking oneself one question till the time one does not get any answer. Also, he gave the formula of success as the number of hours multiplied with the intensity of focus. As youngsters it is important to understand the difference between the traits of a friend and an enemy.

After this the Panel Discussion started with students being the participants. There were six panel discussions which took place. Students participated with full zeal and enthusiasm and the various topics which were taken were Entrepreneurship and Spirituality, Entrepreneurship Development and the impact on Society and Global Relations, Entrepreneurship as a Solution to Unemployment, Entrepreneurs are Born and not made..

After the panel discussion was the Valedictory Ceremony of the Conference. It had Dr P.n. Mishra Sir as the Chief Guest. Dr P.N. Mishra Sir spoke on the importance of entrepreneurship and the young entrepreneurs and how they can contribute towards the betterment of the economy. He further said the young blood has a lot of power and can contribute in an effective manner towards the overall development of an economy. The role of entrepreneurship in economic development varies from economy to economy depending upon its material resources, industrial climate and the responsiveness of the political system to the entrepreneurial function. Path breaking offerings by entrepreneurs, in the form of new goods & services, result in new dimensions of achievement. Dr CA P K Jain Sir also spoke on the occasion and addressed the students and the gathering. Entrepreneurship development is the process of improving the skills and knowledge of entrepreneurs through various training and classroom programs. The whole point of entrepreneurship development is to increase the number of entrepreneurs. By doing this, the pace at which new businesses or ventures are made gets better. On a wider level, this makes room for employment and improves the economy of a business or country. Finally certificate distribution and vote of thanks was given which concluded the conference.

Management Conference 2018

24th National Conference

“Repositioning Educational System: Innovate and Achieve”

Organised by: Pioneer Institute of Professional Studies

Date: 13 October, 2018

Chief Guest: Dr. Narendra Dhakad, Vice Chancellor Devi Ahilya Vishwavidyalaya, Indore

Patron: Shri P.C. Jain (Chairman, Pioneer Group of Institutes)

Advisory Board:

- Dr. P.N. Mishra, Professor & Head School of Economics, DAVV, Indore
- Dr. CA P.K. Jain, Chairman, Pioneer Institute of Professional Studies, Indore
- Dr. Aditya Lunawat, Professor Govt. Girls' College, Dewas (M.P.)
- Shri Trilok Chand Jain, renowned Educationalist & Retired Principal

Conference Chairperson: Dr. Mona Tawar, Director, Pioneer Institute

Conference Secretary: Dr. Neha Lakhotia

Conference Secretary: Dr. Prachi Sharma

Conference Joint Secretary: Dr. Tanu Srivastava

Conference Joint Secretary: Ms. Sheetal Goutam

Anchoring: Dr. Neha Lakhotia

Conference Venue: Conference Hall, Pioneer Institute of Professional Studies, Indore

About Indore:

Indore is a historic city, the capital of the Holkars, known for its architectural splendor. Major industrial houses like Kirloskar, Eicher, TATA International, L&T, and Cummins and with MNCs like TCS and Infosys have

presence in the city to make it a business potential city. Indore is a growing education hub and the only city to have IIM and IIT. The city is well connected by all means of transport and has direct links with all metros of the country. State capital Bhopal, located about 80 kms to the east of Indore and is a major junction for trains bounding North, East and West. Places of Interest around Indore: Ujjain & Omkareshwar, Jyotirling, are located within 100 kms. of Indore. Maheshwar, the first capital of Holkars, and Mandu, the once thriving socio-cultural centre, more popular for the romantic legend of BazBahadur and Rani Rupmati are located nearby.

About Pioneer Institute of Professional Studies, Indore:

Pioneer Group was established in 1996. The group is a renowned name in providing quality education and is one of the oldest private educational Institutes in Indore, M.P. Pioneer Group is run and managed by highly qualified & experienced professionals having domain experience in the field of education & industry. The group established Pioneer Institute of Professional Studies in the heart of city Indore in 1996 with a vision of "Diligence & Excellence" in the professional education. At Pioneer, we are determined in bringing out the best in all students by acceding them to explore their full potential, resulting in a confident, committed and a successful individual. The Institute is being run with an objective to meet the widely felt need for globally oriented Management and Information Technology education and training for professionals. During this span of existence, the Institute has earned a reputation as one of the premier Institutes of India. It has established an identity of its own, and it is getting to be known not only for its Under Graduate and Post Graduate Programs but also for the Academic Research, Teaching and Developmental Activities, National & International Conferences, National Level student's conventions, Workshops, Seminars and Projects. The Institute is accorded permanent affiliation by Devi Ahilya University (DAVV), Indore. The Institute is only private Institute of Madhya Pradesh to achieve the highest educational accreditation with status of 'College with Potential for Excellence' and Autonomous Status from UGC; 'A' Grade Accreditation from NAAC, Bangalore and ISO 9001:2008 Certification from Intertek. Institute proudly stands in top 50 B-Schools of India.

Objective of Conference:

The objective of the conference is to provide a common platform to Academicians, Researchers, Scientists, Industry Professionals and students to showcase their research work and create a forum for effective exchange of ideas to tackle the future education pattern & global challenges from the perspective of "Repositioning Educational System: Innovate and Achieve" The main objective of the Conference is to highlight the Educational Traits & Organization ever-increasing bench-mark of Indian education on Global Platform and critical need to encourage innovative solutions with potential Teaching Technology.

About Conference:

Education provides us an unlimited scope to perceive problems under three situations- concrete, abstract and intuition. The important segment of Education - the ability to reason and think clearly- is extremely useful in every aspect of life. In recent decades research in different education has developed a view that the knowledge growth occurs through interactions among a variety of learners. Fundamentally, the conference is concerned with Repositioning Educational System: Innovate and achieve; however, a first consideration is the Innovation in different contemporary ideas & to achieve the goal.

Sub Themes:

- Classroom Management Reimagined
- The Tech-Savvy School
- The Power of Instructional Leadership
- Beyond Literacy
- Assessing Teaching and Learning for Sustainable Development
- Rethinking the Curriculum
- Sustainable Changes in Education
- Building Networks in Education
- Enhancing Quality of Teacher Education
- Enabling Teachers

- Strategies for Education Improvement
- Contemporary Education & Future
- Impact of Contemporary Education on Future Generation
- Education in Contemporary India
- Gender Issues in Education
- Entrepreneurship & Education
- Government Schemes & Education
- Influence of Higher Fees on Society
- Benchmark of Indian Education on Global Platform
- Indian Education& its Universal Application
- Quality Assurance and Accreditation
- Learning Vs Evaluation
- Curriculum Design and Development
- Internationalization of Universities
- Ethical Issues in Education
- Role of Education in National Development
- Educational Traits & Organization
- Corruption Barometer & Education
- Education system, Failing Pupils
- Rot in education: Students Suffer as Corruption, Politics Plague The System
- Influence of Corruption In Education on Society
- Physiology of Education & Its System
- Technology in Teaching
- Theories v/s Practice
- Highly Gifted Students
- Assessing the Novelty and Innovation of Education
- Closing the Achievement Gap
- Critical Thinking Across the Curriculum
- The Outdoor Classroom

The Conference will have 4 main **Sessions**:

1. Inaugural Session
2. Panel Discussion
3. Technical
4. Valedictory

The **first session**: Inaugural Session of the Conference commenced with the **Lamp Lightening Ceremony**. Light is a symbol of brightness and prosperity as sunlight expels the darkness of night similarly blessings bring in our life prosperity and happiness. To make the conference a blessed one we invoked goddess Saraswati by kindling the lamp of knowledge and wisdom. Lamp Lightening was done by all the esteemed dignitaries on the dais.

After the Lamp Lightening Ceremony and **Saraswati Vandana**, the Institute presentation was shown to the audience wherein, the journey of Institute was shown with the help of an AV (Audio-Video)

The conference instigated with the **welcome note** by **Dr. Mona Tawar, Conference Chairperson**. She welcomed all the delegates contributing in this Conference from different corners of the globe and also briefed

about the objectives of the conference and the vision of the Society. She asserted in her speech that unfortunately, education has mostly become about manufacturing cogs for this machine. We can't let the machine fail, so our children have become the spare parts and fuel needed to keep it running. There are studies which say that if a child goes through twenty years of formal education and comes out with a PhD, seventy percent of his intelligence is irrevocably destroyed. Essentially, we have mistaken information for education. If you deaden the brain with too much information, the possibility of intelligence is definitely lost. What we accumulate and who we are should remain separate. Who I am should not be influenced by what I have accumulated – whether it is material objects, information or impressions.

She added that the purpose of education is to expand the horizons of individual human beings. But that is definitely not happening in most places right now. As people get educated, they really can't get along with anyone! Those who are not so educated can live together. But once you become educated, you become isolated because that is the nature of the intellect. And education today is entirely intellect-based. There is no other dimension of intelligence in it. Mistaking intellect for intelligence is a serious error. It is like trying to drive your car on a single wheel instead of all four. Intellect can function only with the backing of your memory. In other words, your intellect functions with accumulated information. If your memory is removed, your intellect is quite useless by itself. But there are other dimensions of intelligence within you that do not need the support of memory. If education systems do not focus on activating these dimensions of intelligence, you will create a workforce but no geniuses.

Educating yourself fundamentally means to broaden your horizons. From being in limitedness you want to enlarge yourself. Unfortunately, the form of education that is imparted to people today, despite broadening their information capabilities, makes them very narrow in terms of their perception and inclusion of life around them.

A couple of generations ago, everywhere, but especially in Indian culture, people lived in large families. Even today, there are a few families like this with 200 to 300 people living together. If 200 to 300 people have to live in one house where every moment you are close to each other in so many ways, an enormous sense of inclusion is needed. Without that, you cannot live with people harmoniously.

She concluded her speech by a note of Satguru that there is no perfect school there is no College and School infact there is no thumb rule for Youth and Childhood

Further, the **Conference Secretary**, Dr. Prachi Sharma took over and in her address, she **briefed about the conference**. She informed that education is an imperative venture for human and economic development and is prejudiced by the background within which it survives. Changes in technology, labour market patterns and general global environment, all entail procedure retorts. Traditions, culture and faith all reveal the education system and at the same time are also exaggerated by them. The element of continuity and change remains continuous and it is up to the society to determine its rapidity and track. We are living in an inquisitive and innovation-oriented society. The demand of twenty first century is innovation, originality, and incorporation of facts at universal level, research, significant and investigative opinion. Rapidly social changes are creating uncertainty and complexity in the society. To prepare the children and youth to cope with the present situation needs to develop analytical and critical thinking, skill and attitude that would make them more flexible and innovative to deal with uncertainty and crises at national and global level.

Further, **Ms. Sheetal Gautam, Conference Joint Secretary** addressed the gathering. She specifically addressed about the Conference Theme Education for Sustainable Development (ESD). She explained that ESD aims at providing every human being with the opportunity to acquire the knowledge, skills, attitudes and values necessary to shape a sustainable future.

ESD means including key sustainable development issues into teaching and learning; for example, climate change, disaster risk reduction, biodiversity, poverty reduction, and sustainable consumption. It also requires participatory teaching and learning methods that motivate and empower learners to change their behaviour and

take action for sustainable development. ESD consequently promotes competencies like critical thinking, imagining future scenarios and making decisions in a collaborative way.

Education for Sustainable Development requires far-reaching changes in the way education is often practiced today.

The program proceeded with the **Welcome & Introduction of Chief Guest Hon'ble Dr. Narendra Dhakad**, Vice-Chancellor, DAVV Indore.

Further, the program continued with the Address by the **Chief Guest Hon'ble Dr. Narendra Dhakad, Vice-Chancellor**, DAVV Indore. In his address he stated that, in the contemporary world; one eye is on goal and one is on the fruit, in taking care of fruits we forget the soil and root. The feeling has assorted the education system. In competition we just feel we need to go ahead of others not with ourselves. Unfortunately education system is shifted to feeling of anxiety fear of getting 2 marks more. We have become slave of system. We put little bit on creativity. Poem, singing, painting are not considered as a part of education. We are busy studying, running in the race. It is not about being super human but in being superb human. Lowest grade is winning a game without playing; passing an exam without studying has no joy.

Further, the program continued with the Welcome & Introduction of **Distinguished Guest Shri Anil Dhupar**, Senior Journalist, Indore. He stated that, few years back students used to get 50%, the parents were satisfied. 60% or 1st division was considered good. Admission closes at 97% nowadays in the best colleges of the country these days. This is the repositioning in education. Just degrees are not enough in the contemporary world. He gave a practical experience of an interview where the candidate was told to write a CV practically in the interview room. Education is Self-bound system. Repositioning is seen by him as the innovation in education. Real education never loses its importance. The value never ends if the education is of good quality. The job of teacher is to create faith of student on education, institute and on the system. World's economy cannot work without Indians. We have strong primary and secondary education base. The world cannot work without our engineers, doctors, scientists and players. Repositioning colleges don't give admission in normal courses without passing the entrance exams. Simple courses are tougher than BE and PhD. He concluded by saying that, we should know the Rights properly along with the responsibilities. Politicians and bureaucrats must pay attention on this.

Further welcome & Introduction of **Distinguished Guest Shri Vikas Dave**, Chief Editor, Devputra Magazine was done. Further, address by Distinguished Guest Shri Vikas Dave, Chief Editor, Devputra Magazine was held. He started his speech by a portion of the very famous Sansrit Shloka [□□ □□□□□□ □□ □□□□□□□□□□ meaning that which frees is the real education.](#) He expressed that today's Conference is apt as it points out the problems of education system, analyses them and then find solutions to them.

He quoted an incidence that once while travelling through train, he met a young Indian, and asked him what the reason of studying was? The student answered that he was studying to have a good wife, then a good family further he wanted to enjoy. But the actual Goal of Education is that which helps us get free. The current system is engaging us in unnecessary things. The now education system has repositioned. He quoted the words of Swami Ramkrishna Paramhans, that the education starts eve before taking birth. The child learns in the mother's womb. One must experience, not alone read books. We have taken into consideration, the western education system as a sample. The current education system we are following in India will handicap the Indian students. We should try to learn from known to unknown. Mugging up has created wrongness in education system. We have set up benchmark to IQ. India considers EQ more than the IQ. Ample Information is available on net but is that information important for us? Knowledge is different from information. Students should hold sensitivity towards everything.

Further, the program continued with **the welcome & introduction of Conference Advisor Shri Trilok Chand Jain**, Renowned Educationist & Retired Principal, Sonkatch. We have adopted western culture, education system. He quoted that no foreign ruler ever spoils our Indian Culture. So many text books, reference books have created chaos in the minds of the students. Nation wise unity in syllabus must be adopted to lessen the burden on students. For equality we must reposition the education system. Suppression by western education system is hampering

Indian Education System.

Further, the program continued with **address by Dr. CA P. K. Jain, Principal & Founder Chairman**, Pioneer Group. He stated that Education has various aspects spiritual, emotions, family, etc. Current education system does not develop the overall personality. The aim of education must be to reduce immorality and corruption from society. Current system does not develop moral values in the students. For balanced development in the personality the current education system is not supportive. Today the students are energetic but there is no proper guidance. Students focus on materialistic things, they lack physical knowledge as the education system lacks moral teaching.

Further, **Presentation of Mementoes** was done. As a token of remembrance of the day, the guests were presented with the Memento.

The Inaugural Ceremony ended with the **words of thanks** by Dr. Tanu Srivastava, Conference Joint Secretary.

Everyone gathered for the **photograph session** at last.

Second Session:

The second session commenced post lunch wherein, the **Panel Discussion** was held. Eminent speakers from across the country joined in and presented their views on the questions raised by the moderator, Mr. Anurag Tagde as well as the audience.

The highlights of the Panel Discussion are as follows:

Dr. Ram Shrivastava stated that all the students now are very sharp. 70% IAS and IPS come from Govt School.

Dr. Taranjeet Sood said that the primary education is better in private schools rather than government school. In secondary education it is vice versa.

Mr. Mohit Yadav said that Infrastructure is seen these days rather than education. Students and parents comment on the teacher and action is taken by the school over it. Indian education System is the oldest education system of the world, it used to focus on 360 development of the student. Nowadays the education system has changed but it is not bad, many examples like, Abdul Kalam, professors are benchmark for us. Student and teacher must both work for the overall development.

Dr. Yamini Karmarkar said that tolerance should be taught to the students. We let them be in comfort. Parents don't let them see failure; we only let them taste the success.

Dr. L.K. Tripathi said that interesting subjects like Music should be involved in the lives of the students. Music plays a vital role in the development of the personality of a student.

Dr. Rajesh Vyas quotes an example of personal life. We cannot give time to children as we keep on earning. Amitabh Bachchan couldn't give the proper environment to his own son unlike his grandfather.

Dr. Anant Gwal asserted that the maximum capacity of the students to listen is 43 minutes so each lecture should be of maximum 40 minutes only.

Dr. Geeta Nema stated that teachers give their real life experience to the students, students must respect them. We must concentrate and focus on our own aim.

Dr. Anand Sapre said that Power and position is only seen by the youth these days and they do not develop their personality these days.

Dr. Aditya Lunawat stated that we are career oriented not personality oriented.

Dr. Rekha Acharya stated that Teachers sow the seeds of better future in students, the students grow slowly into a developed responsible citizen. Also the Responsibility of teacher is not only teaching, he is mentor as well.

Dr. Ugrasen Suman said that Parents must observe the students all the time; we must not depend only on the school. Their day to day activity must be observed.

Dr. Ram stated that Harvard University is the best university but while learning there one can know about the physical practical knowledge.

The Conference concluded with Valedictory session wherein the certificates were distributed to all the participants. Mementos were also given to the Session Chairs.

The proceedings of the Conference were nicely and successfully managed by the active members of

the Conference.

The conference proceedings and researches are published in the Shodh Journal of Management and Information Technology.

The Society of Research Development would like to especially thank all the delegates who participated in the intensive discussions and exchanged their ideas and views.

STUDENT DEVELOPMENT PROGRAM

INTERNSHIP

Pioneer Institute prepare students for a career by helping them obtain hands-on experience through internships, externships, and cooperative education (co-op) programs.

From career fairs and workshops to alumni mentorships and shadowing, the Institute gives students all the resources they need to score the perfect internship. The following students got placed/internship:

S No	Name of Student	Company Name	Address of Company	Time Period	
				From	To
1	Honey	Y Berry Info system	509 B 5th Floor behind Corporate House RNT Mark ,Indore	12/19/2017	
2	Nitya Yadav	Moreyeahs IT Tech. Pvt. ltd.	201 A BCM Paradise, Indore	6/5/2017	15/0/2017
4	Deepika Gupta	Influx Sourcing	BH 39 Sarnath Parisar Kesar Bagh Road Indore	8/8/2016	9/23/2016
5	Garima Jaiswal	Moreyeahs IT Tech. Pvt. ltd.	201 A BCM Paradise, Indore	6/5/2017	15/0/2017
6	Shivani Sharma	Moreyeahs IT Tech. Pvt. ltd.	201 A BCM Paradise, Indore	6/5/2017	15/0/2017
7	Shalini Bhadoriya	Moreyeahs IT Tech. Pvt. ltd.	201 A BCM Paradise, Indore	6/5/2017	15/0/2017
8	Pooja Nahatkar	Moreyeahs IT Tech. Pvt. ltd.	201 A BCM Paradise, Indore	6/5/2017	15/0/2017

The Placement and Internship Activity was coordinated by the Mr. Radheshyam Acholiya, and co-coordinated by Ms. Simnalika Kushwaha.

SEMINARS

Way Towards Success

On 2nd January 2018 a seminar on *Way Towards Success* was organised in the Conference Hall. CA Sanjay Gupta was the speaker. Anchoring was done by Ms. Simnalika Kushwaha.

The Seminar went on up to 2 hours. The speaker asserted that Success is what most people dream of accomplishing. To reach our heart's desire is the ultimate goal. Although we live with different purposes in life, it is the main reason why we stand, why we strive and why we continue to live... to be successful!

The speaker asked to the audience "How can we achieve success? How can we maintain success and what is the key to success?"

The students answered it by saying- "Achieving success"

When it comes to the secrets of achieving that mysterious beast called success, we definitely think of our ability, the amount of money we have or the number of blessings that shower us every day. But, realistically, motivation is the one true key to success.

Successful people are those who can pick themselves up, or take a chance, and get going when something needs to be accomplished, instead of waiting around. Perhaps we don't all have the foresight or expertise to make the right choices straight away. However, some of our troubles could dissolve faster if we keep ourselves positively motivated.

The speaker added that maintaining success is even more difficult than achieving it.

Learning how to motivate yourself is an effective skill to have when challenges come knocking at your door. Being skilled at motivation can help you survive any storms that come along. Becoming motivated gives you a feeling of control when everything around you has run out of control. However, it all stems from inside you.

Motivation can't be discovered from looking outside ourselves. Sometimes something will come along in our lives and disappoint us, make us weak and vulnerable. Finding the desire to continue on a positive path on our own will make us strong; help us stand up tall and continue in pursuit of what we have started.

As with many things in our lives, our personalities greatly influence our success or failure in any given situation. But, whether our personalities contribute to our success or turn out to be obstructions does not altogether define us as failures. We can't change the world in general, but we are able to change how we live our own life and affect the human nature and conditions which may try to hide our path to success.

The speaker supplemented that the key to success is motivation.

Finally, the speaker concluded by saying that motivation is a crucial leadership skill. In time that you have the need to attain success, worries will surely arise. If we really want to achieve everything we set out to achieve, being strong and staying motivated is key.

Many of us can stay motivated over a short period of time, but it takes a great deal of discipline to stay motivated over a long period of time. To be successful in life, we must have a number of creative approaches that can assist us in maintaining our motivation. It is absolutely necessary to ensure that you dedicate time each and every day to the motivation that you need.

The speaker ended his speech by a quote- Stay on track. Stay motivated. Stay successful!

The event was co-ordinated by Ms. Simnalika Kushwaha and co-coordinated by the student volunteers.

Guest Lecture by Dr. Sharad Pandit

On 19 January, 2018, a Lecture on HEALTH INDUSTRY IN INDIA was taken by Dr. Sharad Pandit. The speaker introduced with saying that Healthcare has become one of India's largest sectors - both in terms of income and employment. Healthcare comprises hospitals, medical devices, clinical trials, outsourcing, telemedicine, medical tourism, health insurance and medical equipment. The Indian healthcare sector is growing abruptly due to its consolidation coverage, services and increasing expenditure by public as well private players. The healthcare

market can increase three fold to Rs 8.6 trillion (US\$ 133.44 billion) by 2022. The hospital and diagnostic centers attracted Foreign Direct Investment (FDI) worth US\$ 4.99 billion between April 2000 and December 2017, according to data released by the Department of Industrial Policy and Promotion (DIPP). The Government of India aims to develop India as a global healthcare hub. India is a land full of opportunities for players in the medical devices industry. India's healthcare industry is one of the fastest growing sectors and in the coming 10 years it is expected to reach \$275 billion. The country has also become one of the leading destinations for high-end diagnostic services with tremendous capital investment for advanced diagnostic facilities, thus catering to a greater proportion of population. Besides, Indian medical service consumers have become more conscious towards their healthcare upkeep.

Indian healthcare sector is much diversified and is full of opportunities in every segment which includes providers, payers and medical technology. With the increase in the competition, businesses are looking to explore for the latest dynamics and trends which will have positive impact on their business.

The event was coordinated by the Ms. Kumkum Sinha and co-coordinated by Ms. Sheetal Gautam.

A Seminar on 'GST and Employment Opportunities'

A Seminar on GST was organized on Saturday, 20 January 2018. The Key Note Speaker was CA Madhav Tulsyan, associated in a renowned company in Mumbai. This seminar mainly highlighted the Effects of GST and Employment Opportunity as well as described how to change India with the Effect of GST.

He started with the difference between Attitude and Aptitude and how to do better by focusing on attitude. Attitude decides your future. GST came like an Attitude and it has forced the black chain of market to become white to a large extent. He quoted that Mr. Narendra Modi and Mr. Manmohan Singh worked earnestly for the application of GST in India.

The following key points were highlighted in the Seminar:-

- Difference between Aptitude and Attitude. A person needs a positive attitude for success rather than aptitude
- Effect of GST on Indian Economy
- Black Chain Market
- Corruption
- GST laws
- GST Rules
- Tax rate structure including Compensation
- Classification of goods and services into different rate slabs
- Exemptions
- Thresholds
- Tax administration

The event was coordinated by the Ms. Kumkum Sinha and co-coordinated by Ms. Sheetal Gautam.

Workshop on Personality Development

On 24 January, 2018, a Workshop on Personality Development was taken by Dr. Prachi Sharma, who had been a Trainer from USA and associated with *The Star English and Grooming Club Indore*. This workshop provided training for Placement and Interviews; how to give interview, dress code for interviews, how to walk, how to answer during interviews.

This program had some modules that helped the students to know the basics of presentation skills along with knowledge of body language so that they can deliver their presentations with professionalism. Additionally, the program also focused on effective time management techniques and some powerful tips to handle stress in life.

Further she explained how to overcome their fears in interviews. People should have confidence about knowledge, courses and skills. She discussed some golden rules for interviews. Students should recognize their strengths and skills and present them in front of the interviewer during interview.

The event was coordinated by the Ms. Simnalika Kushwaha and co-coordinated by Ms. Sheetal Gautam.

Workshop on Communication Skills

On 29/1/2018, a Workshop on Communication Skills was taken by Dr. Prachi Sharma, a PD Trainer from USA. She started the workshop by stating that Good Communication Skills are essential for being successful in the contemporary world. Being an effective communicator takes real skills. Communication skills need to be developed, honed and added on regular basis. They are the heart of your interpersonal skills and the greater your awareness of how it all works, the more effective your communication will be. To be effective in business also, you have to communicate well. To be a good manager, you have to communicate exceptionally well.

She further said that when we start to look at communication, it becomes immediately apparent that the way you present yourself is not all there is to it.

The greatest skill you can have in order to instantly and significantly improve your communications skills is to understand the other person's point of view and how they see the world. If you understand their point of view then you can adjust your own communication to take their point of view into account.

The only person you can be sure of changing in any communication is you. Therefore, the most effective way to be in charge of what happens in any communication dynamic is changing what you do. When you can do this you are well on the way to promoting better relationships.

The session was interesting and interactive. The event was coordinated by the Ms. Simnalika Kushwaha and co-coordinated by Ms. Sheetal Gautam.

Seminar on Success in You

Everyone wants to be successful but nobody wants to put equal efforts for it. The world and its trends are evolving and so the mantra for achieving success as well. You need to work hard and take pains to gain something. The Institute organized special seminar on “Success in you” on 18/09/2018 and Mr. Prince Verma, one of the powerful speakers shared his experience.

Topics covered during the seminar-

1. Mantra for success
2. Inspired living
3. Pathway to excellence
4. Happiness

The seminar aimed to help people leverage their inner resources to achieve success. Nobody is born successful; it is a process that starts with motivation. These are the inner thoughts and positivity of the person that make him to act to get success in the work or project.

Mr. Prince Verma explains how inner motivation determines your success. It encourages people to recognize their Svadharma – own nature to become a star player in their field. How energy plays a significant role and brings you closer to your goals will also explained by our special speaker.

The seminar also covers the force of focused mind, and useful tips to fuel success.

Seminar on Digital Marketing

On 19th September, 2018 a Seminar on Digital Marketing was held. The Founder and CEO of Career Management Institute Mr. Kunal Soni was invited as the guest speaker.

The speaker asked the audience about what they know about Digital Marketing. Many students answered him. He then defined himself At a high level, digital marketing refers to advertising delivered through digital channels such as search engines, websites, social media, email, and mobile apps. While this term covers a wide range of marketing activities, all of which are not universally agreed upon, we'll focus on the most common types below.

Motivational Lecture

On 26th September, 2018 a motivational and a very inspiring and interactive motivational lecture was organized by the Institute. The lecture was delivered by Dr. Sandeep Atre.

Dr. Mona Tawar, Director, Pioneer Institute welcomed the guest with the token of flowers.

Ms. Simnalika Kushwaha read the profile of the speaker.

Dr. Atre has accomplished PhD recently. He is the Founder-Director of Socialigence – an organization that specializes in the development of ‘Social Intelligence’ through its focused online-courses and customized workshops on ‘observing nonverbal behavior and understanding emotions for greater interpersonal effectiveness and self-management’ (www.socialigence.net).

He is also one of the Founder-Directors of CH EdgeMakers - a leading ‘Coaching and Training’ group of Central India.

He has authored two books “Understanding Emotions Logically – A layman’s guide to the foundations of Social Intelligence” and “Observing Nonverbal Behavior – An exhaustive guide to the essential skill of Social Intelligence”.

In his lecture, Dr. Atre asserted that very choice shapes us. However, there are some choices that change us forever. Yes, the changes they elicit are irrevocable. Even if we come back to the same life circumstances afterwards, we don’t remain the same ‘us’. Something inside us touches the point of no return.

He asked the audience that “Is crossing those lines good or bad?”

He answered it as: Well! Hardly matters; because whether something is good or bad is always subject to which side you are on, and which angle you are looking from. But one thing is for sure – for better or worse, the transformation will be permanent.

He quoted few examples of his own experiences and closed his speech by saying Do remember that from then onward, any new line that you draw shall be... ‘vulnerable’.

Not only the students, but all the faculty members also liked the lecture and were motivated thoroughly.

Dr. Mona Tawar, Director Pioneer Institute gave a book written by Dr, P. K. Jain (Principal, Pioneer Institute) to the speaker Dr. Atre as a token of remembrance of the day.

At the end Ms. Simnalika gave a vote of thanks.

Lecture on Stress Management

Institute organized a Guest Lecture on *Stress Management* by Dr. Amrish Joshi, on Saturday, 08 December, 2018 in the Board room.

Ms. Simnalika faculty of Pioneer Institute introduced the guest speaker of the program *Dr. Amrish Joshi*. Dr. Amrish Joshi guided and motivated students to plan and manage their studies. Dr. Amrish Joshi explained how

stress is a part of human life and explained causes of stress and, its effects on body and mind. He explained in detail the strategies to manage stress effectively. All students and faculty members attended the programme. Ms. Simnalika coordinated the program. The program was appreciated by faculty and the students.

Lecture on Yoga therapy and Meditation

Yoga Day was celebrated on 8 December, 2018. All students and all faculty members participated in Yoga Day celebration and the Wellness of Yoga practice. Faculty Members, Non-Teaching Staff, Students attended the function. The Yoga session started with great enthusiasm and as the program progressed, the audience got connected. Many Aasanas were practiced by the audience, the session reduced stress out of everyone's mind. After the yoga practice, yoga expert delivered fruitful lecture to the audience regarding the Wellness of Yoga.

The session proved out to be fruitful for everyone present.

The program was coordinated by Ms. Kumkum Sinha.

J-Gate Seminar

On 10th December 2018, Indore, Mr. Mayank from J-Gate addressed the faculty members and students of the Institute. At the start of the session, he expressed his pleasure on being given the opportunity to organize this training & awareness programme for optimum usage of digital resources under J-Gate e-learning resources. Mr. Mayank, emphasized to make the association more visible and create awareness among researchers, scholars and others who are involved in the field of Management Research. Also he created awareness about the mode of journal subscription and electronic information services, which help in saving resources by avoiding duplication in journal subscription by various Management research Institutes. He also elaborated on the various modules in J-Gate and its advanced features for the benefit of the participants. Ms. Kumkum Sinha proposed a Vote of Thanks to the speaker at the end.

ENTREPRENEURSHIP DEVELOPMENT CELL

E Week Celebration (10-16 February 2018)

E Week was celebrated in the Institute under the flagship event of Wadhvani Foundation's National Entrepreneurship Network (NEN). E Week 2018 was the 10th edition and was Asia's biggest entrepreneurship event which covered 45 cities, 5000 events and 8,00,000 participants over one week 10-16 February 2018. It was designed to encourage educators and students to become innovation catalysts and job creators by making deep investments in ideas and innovations that guarantee market success. The gathering comprised of students, faculty, mentors, E-Cell members, E-Leaders, other representatives of the entrepreneurial community and the staff.

The theme for E Week 2018 was "Live Your Entrepreneurial Dream!" – Break barriers. Create wealth. Change India. Now is the time to be an entrepreneur whose audacious ideas starts a venture, faces inevitable challenges

head-on, makes money, creates jobs for many and ultimately helps build India.

E Week (Day 1) 10th February, 2018

To motivate the students towards Entrepreneurship, a motivational movie- *Office Space* was shown to them. Motivation comes in two varieties: positive and negative. Positive motivation moves you forward; negative motivation keeps you from going backwards. This film reminds entrepreneurs why they should never settle for a corporate job again. It satirizes the everyday work life of a typical mid-to-late-1990s software company, focusing on a handful of individuals fed up with their jobs. The film's sympathetic depiction of ordinary IT workers garnered a cult following within that field, but it also addresses themes familiar to white-collar employees and the workforce in general. It was well received by the students as the activity was poles apart for the students' day-to-day life.

This activity was coordinated by Ms. Simnalika Kushwah and Co-Coordinated by Ms. Sheetal Singh Goutam.

E Week (Day 2) 12th February, 2018

Challenges before an Editor

A Lecture on 'Challenges before an Editor' was held on Monday, 12th February 2018 at Pioneer Institute of Professional Studies, Indore. This Lecture was delivered by Mr. Mukesh Mathur. He is Associated with Dainik Bhaskar since past 19 years. He started his career as a reporter in Rajasthan and won 8 best editor awards from Dainik Bhaskar. In his lecture he discussed the importance of media and the job of an editor. Newspaper editors have the daily responsibility of deciding which news stories are to be printed in the paper and which are to be disposed off. Long before the paper is published, the editor assigns reporters to cover the news, checks for accuracy and fairness of the articles and thinks for headlines that are catchy. It is not unusual for a newspaper editor to have worked as a journalist or proof reader before becoming an editor.

He discussed about responsibilities of an editor towards society and his job. Editors are accountable for the news output of newspapers, radio and television and play a twofold role. To cover events, news stories, they assign staff journalists or freelance writers. They review the stories and edit them for factual accuracy. Editors may also take responsibility for copy editing stories. They make decisions about the relative importance of different stories and ensure that they fit the available space or time slot.

He further discussed about the job of an editor, how an editor communicates the public with any information. He also discussed on scope of journalist and its challenges.

An editor always tries to bring the smallest information to the reader and get positive feedback from the reader. He said - the manner in which an editor collects the smallest news by going to the villages and then communicating the same to its readers is again a very challenging task because in villages it is very difficult to capture news using camera or other such gadgets as the villagers are very rigid. In such a situation an editor is able to communicate every news to the Reader. For the position as a newspaper editor a "nose for news" is a strong prerequisite. Knowing which stories to cover and which to ignore can make or break a paper and an editor. Leadership skills and the ability to juggle multiple people or department and their various priorities are also critical.

This Seminar was a part of E-Week Celebration. This activity was coordinated by Ms. Simnalika Kushwah and Co-Coordinated by Ms. Sheetal Singh Goutam. The seminar was witnessed by all Faculty members and all students of Pioneer Institute.

E Week (Day 3) 13rd February, 2018

On 13 February, 2018, a Lecture on 'Entrepreneurship' was delivered Dr. CA PK Jain, Principal Pioneer Institute. Being an entrepreneur can be challenging, rewarding, frustrating, satisfying, disappointing, and exhilarating. No one ever said it was easy being an entrepreneur. Whether you're in the early stages of your start up, just secured funding for your startup or you are ready for product launch, there will always be those three components when you ask yourself if this whole entrepreneur thing is worth it.

A lot of Entrepreneurs forget the most fundamental things when developing their business and creating the right connections, he discussed the difference between a job and entrepreneur. He highlighted some important points that one should possess for becoming a successful entrepreneur like 'Self-Confidence'.

He further explained that the role of Self-Confidence is very important for becoming a successful entrepreneur. If you have Self-Confidence, you can do anything whatever you want to do. Always remember the willingness lies in you if you wish you can do miracles. The second point to consider is 'Risk'.

It is a very well-known fact that running a business is not easy mainly because of the risk factors involved in it. The ever changing scenario puts a lot of pressure on entrepreneurs to improve their skills and battle risk at the same time. Every business, big or small, incurs risks that are born by an entrepreneur. The risk start when he/she plans for a business and continues face the situation until it has completely ended with the severity and the degree of risk changing at regular intervals .He also discussed about the several types of risks like Competitive Risk, Technological Risk, Political and Legal Risk, Economical Risk, Financial Risk - Financial risk, Employee Risk. He said "Choose a job that you like, and you will never have to work a day in your life".

This Seminar was a part of E-Week Celebration. This activity was coordinated by Miss. Simnalika Kushwaha and Co-Coordinated by Miss. Sheetal Singh Goutam. The seminar was witnessed by all Faculty members and all students of Pioneer Institute of Professional Studies.

E Week (Day 4) 15th February, 2018

A Lecture on 'Digital Marketing' was held on 15 February, 2018 at Pioneer Institute. This Lecture was delivered by Mr. Kunal Soni who is the founder and CEO of Career Management Institute. In his lecture he discussed on the prominence of Digital Marketing and its necessity in today's era.

He started with the explanation of the concept of Digital Marketing. He said that it is the elevation of products or brands via one or more forums of electronic media. It is predominantly significant, not only because of its speedy growth but also because it is fundamentally the future of marketing. Many people think that old-fashioned promotion will soon be substituted exclusively by going Digital.

As part of Digital Marketing – Social Media is miscalculated. It's an error because "Facebook" likes or "Twitter" shares can help your establishment grow as they build trustworthiness and trust. They also bring circulation to the website and are costless. What you have to do is to insert a Social Media plug in onto your site and keep informing your customers about the company news, discounts, etc. He further said - Bear in mind to programme the occurrence of updates and not to overwhelm them with too much information at once. You may be surprised with the outcome as the outcomes are beyond ones anticipations.

With the revolution and evolution of modern technologies, **minor and mediocre businesses** are doing everything they can to keep up, which can be said true for the rest of human society.

He also discussed about the various Digital Marketing opportunities which are available for the youths like Search Engine Optimization (SEO), Social Media Marketing (SMM), Email Marketing, and Web Analytics. To understand, why digital marketing is the right career choice, one must look at the growth of internet and social

media over the years.

This Seminar was a part of *E-Week Celebration*. This activity was coordinated by Ms. Simnalika Kushwah and Co-Coordinated by Ms. Sheetal Singh Goutam. The seminar was witnessed by the Faculty Members and students of Pioneer Institute.

On 15 February, 2018, a Guest Lecture on 'Social Media' was delivered by Mr. Pradeep Mahaur. In his lecture he discussed on importance as well as usage of Social Media. He said that social media is the collective of online communications channels dedicated to community-based input, interaction, content-sharing and collaboration. Social media is a series of websites and applications designed to allow people to share content quickly, efficiently and in real-time. Most people today define social media as apps which are in their smart-phone or tablet, but the truth is, this communication tool started with computers. He gave some examples of social media covering Facebook, Twitter, Google+, and LinkedIn.

He also explained how Social media is helpful for doing business. Further he beautifully defined Social Media analytics which is the practice of gathering data from blogs and social media websites and analyzing that data to make business decisions. He further said that Social media is becoming an integral part of life online as social websites and applications proliferate. Most traditional online media include social components, such as comment fields for users. In business, social media is used to market products, promote brands, and connect to current customers and foster new business.

This Seminar was a part of E-Week Celebration. This activity was coordinated by Ms. Simnalika Kushwaha and Co-Coordinated by Ms. Sheetal Singh Goutam. The seminar was witnessed by various Faculty members and students of Pioneer Institute.

E Week (Day 5)

Seminar on Bollywood Script Writing

On 17 February 2018, Bollywood script writer Mr. Akshat Gupta addressed the seminar at Pioneer Institute. In the 2 hour seminar students learnt how writing can be a skill and how one can become entrepreneur by growing this skill.

According to the speaker, the person who is interested in writing must pursue this hobby as a passion and dedication. He gave the following tips to improve writing skills:

- Plot the story in small format with all the characters and relations clearly.
- Write a story in parts and give a break to the story and continue writing after few months so that you get new ideas every time.
- Follow your heart
- Revise your work as many times as possible
- The same story can be given a new touch later on as our maturity level increases after few months
- Don't bother your writing with the stringent rules or you will lose creativity

The seminar was interesting for students and they were interacting freely as the speaker was frank enough. The speaker asked few questions to the audience to check their presence of mind. Students noted down the key highlights of the seminar.

The seminar was attended by faculty members and students of Pioneer Institute. Coordinator was Ms. Simnalika Kushwaha. She introduced the speaker to the audience and gave vote of thanks at the end of the session.

Pioneer Institute of Professional Studies, Indore concluded its week-long festivities held during E-Week 2018 under the expert guidance of its faculty members like Dr. CA P.K. Jain, Dr. CA Prashant Jain, Dr. Mona Tawar

and Mr. Anurag Tagde, the students organized over 30 stalls based on 7 themes as part of the E-week celebrations. The theme for the E-Week was, “Live your entrepreneurial dream, break barriers, create wealth, change India.” Students from all batches participated in the week-long festival and were given all the support and encouragement to bring out the entrepreneur in them.

This year, the aim of E-Week at the college was to go bigger, and help every student discover the entrepreneur in them. The faculty and mentors encouraged the students to push their boundaries and become job creators, not job seekers. A plethora of innovative events were organized to bring out the entrepreneur in the participant. The events included challenges like the 50 rupees challenge where the participant was required to create products using minimal resources and market them convincingly.

Business planning workshops were held to enhance the entrepreneurial skills of students and push them to bring out innovation in their entrepreneurial ideas. The workshops also threw light on the benefits of being a job creator instead of a seeker, the importance of planning, time management and so on.

SOCIAL CELL

WORLD AIDS DAY

Every year on December 1 we celebrate World Aids Day in order to create awareness about the deadly disease aids caused due to the virus HIV and to commemorate the victims of the disease.

At Pioneer Institute we celebrated this day by creating awareness about this disease among the youngsters.

The program started with the speech delivered by various post graduate students. MBA student Mr. Avinash Kanare asserted in the speech that this day is an opportunity for all college students to stand unitedly against this disease. He elaborated that there are nearly 36.7 million people around this world suffering from aids. This disease is one of the biggest fatal diseases in the world. Till date more than 35 million people have died because of aids. This day is important because we can remind ourselves that we can take precautions against this mortal disease.

While Ms. Nidhi Kumrawat of MBA took this speech to another direction by adding her view about aids day. She stated that there is still a big need to create awareness about this disease. We need to raise money and improve the quality of education so that the society gets to know that precaution is better than cure.

Pioneer Institute also organized a seminar on this big day. Dr. Sharad Pandit was invited as the guest speaker. This seminar was attended by Students, Staff and Faculty Members from Pioneer Institute, Pioneer Convent and Pioneer Public School.

Dr. Pandit highlighted that World Health Organisation in association with hospitals around the world are aiming to achieve universal health coverage by the year 2030. Right to health focuses on reaching vulnerably to all the 36.7 million victims of AIDS. He said that the WHO is also providing medicines and diagnosis at affordable rate. WHO is trying to cover each person from every part of the world so that no one is left behind. Hence, people suffering from HIV can take affordable high quality health care services from the nearest hospital. He also assured that all the patients are treated in healthy environment in all the hospitals and are not kept detached from the others. The seminar was interactive and students asked various questions related to the topic. Dr. Pandit answered them happily.

Slogan competition

Undergraduate Students of Pioneer Institute participated enthusiastically in the slogan competition held right after the seminar. Students wrote both in Hindi and in English. The best two students were selected out of the Hindi and English category and were awarded by Dr. CA PK Jain- Principal, Pioneer Institute.

The students wrote slogans about aids "not being a communicable disease" due to touch or eating together, about the disease "don't create untouchability". Few wrote about "changing attitude towards AIDS patients".

Students focused on how this "disease can be prevented". The audience were amazed to see such awareness during the competition.

Rally

The students came along the streets near college in the form Of Awareness Rally Against AIDS. Students started the rally with a small silent prayer. The students appealed the normal public to stand up against AIDS. They used the slogans that they created during the slogan competition to make people aware about AIDS. It was exciting for students and they stood and raised their voice without being embarrassed against the disease.

Essay

There was an essay competition held in the college campus. BBA student Mr. Mohit Chourasiya wrote candidly about how AIDS is caused and that HIV (that is human immunodeficiency virus) can cause AIDS when one comes in contact with the infected person via blood, semen, or vaginal fluid. This can be avoided by protected sex, use of fresh needle, etc. This disease attacks the immune system of one's body. HIV destroys the WBC of blood. He explained about the two types of HIV virus and symptoms of the disease. He also told that all HIV effected patients may not be AIDS patients. He told how this disease can be diagnosed and then treated.

Ms. Sanjula another winner of the essay competition communicated that prevention of AIDS is better than any kind of cure. She voiced about the methods of preventing from this disease. She also told what steps should be taken to avoid this disease.

Blood Donation Camp

Students voluntarily donated their blood in the camp organized at Pioneer Institute. First the students took a small test wherein their blood group, hemoglobin, WBC, RBC, etc. was tested. Then after their weights were checked and those whose weight matched in accordance with their height and age were allowed to donate the blood. Students donated Blood and gave a message that today's youth is are ready to help the society when in need.

The overall World AIDS Day was conducted successfully. The event brought positivity amongst the students and we look forward to more such events at our campus. We thank the Red Cross Society for their kind support in this event.

The event was coordinated by the Mr. Radheshyam Acholiya, and co-coordinated by Ms. Simnalika Kushwaha.

THE TRAINING-WORKSHOP ON SMART GIRL TO BE HAPPY & TO BE STRONG

Smart Girl program formerly known as EOG (Empowerment of Girls) is a unique endeavor of Bhartiya Jain Sanghatana (BJS) that seeks to address issues and concerns related to emotional development of girls (from 8-10 Std). The underlying assumption to this program is that girls in the age of 14-18 years are emotionally vulnerable and denied equal opportunities for development as compared to boys in similar age group. Addressing this gender gap will lead to overall development in girls thereby increasing their capacities to take decisions and control over their own lives. The prevailing social environment and increasing reports of violence (physical and verbal) against girls also necessitates implementation of Smart Girls program.

Smart Girl is a simple initiative that was rolled out initially on a pilot basis to evolve the design for the benefit of

the girls through community network but it has now grown and expanded its scope and reach to cover all school going girls in 8th-10th standard. Over a period of time the program has also been renamed as Smart Girl program from EOG to reflect the change in the outlook of girls who are modern and liberal in thoughts.

Date and Venue

The training-workshop took place on 1-2 February 2018 at the IIPS Devi Ahilya University, Indore. Dr. Tanu Srivastava, Assistant Professor, Pioneer Institute was nominated to attend this unique endeavour of Bhartiya Jain Sanghatana (BJS) that seeks to address issues and concerns related to emotional development of girls. The underlying assumption to this program is that girls in the age of 14-18 years are emotionally vulnerable and denied equal opportunities for development as compared to boys in similar age group.

Mr Prafull Parekh was the trainer of that workshop, he is the National Secretary of Bhartiya Jain Sanghatana.

Hundred Assistant Professors were as a participants from various colleges of Madhya Pradesh. Dr. Tanu Srivastava represented Pioneer Institute.

The workshop was inaugurated by Hon'ble Dr. Narendra Dhakad, Hon'ble Mr. Ajay Verma, Mr. Virendra Kumar Jain, Mrs. Rekha Jain, Mr. Prafull Jain (Trainer), Dr. L.K. Tripathi. Hundred teachers from 80 colleges of Madhya Pradesh participated in the session.

The session began with a welcome during which the project and the delegates were introduced. This was followed by the lighting of the lamp to symbolize the inauguration of the workshop.

The two day workshop was divided broadly into 5 sessions. The first session introduced the training related to girls. The second session added some technical registration of trainers and parental session.

Dr. Tanu Srivastava thereby conducted the similar Training in the College for the students of Pioneer Institute with the same objectives. She as a trainer tried to enhance self- awareness in girls that directly and indirectly tried to improve their social status. The aim was to significantly enhance self- awareness in girls that directly and indirectly improves their social status. It helped in increasing the knowledge about maintaining self-esteem in girls, instil confidence to face adversities and to know the practical tips for self defence and to generate ability in girls for balancing choices and making life decisions rationally. She taught how to inculcate positive beliefs in girls about right friendship and handling temptations, to sensitize parents for their adolescent children's developmental and emotional needs and to enhance systems and institutional capabilities for sustained improvement in development of girls.

Smart Girl Workshop Framework

No.	Modules	Module Objectives
1.	Self -Awareness	To create realization that each one of us lack self-awareness To generate awareness about the importance of knowing one self To learn technique of questioning oneself for increasing self-awareness

2.	Communication and Relationship	To introduce basics of essential aspects of communications To develop sense of family bonding in spite of situational differences or gaps in family To develop acceptance for differences of opinion and to create sense of understanding
3.	Self Esteem and Self Defence	To know that everyone has some or the other strength To create self-respect through identification of strength To know that the self-esteem matters and it can be protected To convey the need to manage fear and / or anger To create realization that goal of self-defence is survival not winning To instil confidence to face adversities and know the practical tips for self defence
4.	Choices and Decisions	To create sense of responsibility required to exercise choices and to take decisions To generate understanding of correlation between freedom and responsibility To discuss important life choices and decisions where one needs to be careful
5.	Friendship and Temptation	To understand the importance of friendship in one's life To create awareness about importance of selecting right friends To create awareness about the need to weigh pleasure versus consequences
6.	Dialogue with Parents	To sensitize parents about the needs of young children To facilitate healthy communication between parents and children

Smart Girl program initiates life skills education for secondary schools girls with introduction to the need of self-awareness for decision making, communication skills for interpersonal relations, critical thinking for choices and decisions, and handling of self-esteem for stress and emotional management.

The main motive of this training session was 'To convert girls to smart girl on the basis to develop right decision for self and situational'.

First day the trainer Mr. Prafull Parekh focused on the framework of smart girl that is Self –Awareness, Communication and Relationship and Self Esteem and Self Defense.

Second day Mr. Parekh discussed Choices and Decisions, Friendship and Temptation and the most important point that was Dialogue with Parents. Both sessions included some activity related to framework of smart girl programme.

Mr Reddy described how to register all trainer's with smart girl's website because it's very important to register every trainer's.

Finally in Valedictory session Hon'ble Dr Narendra Dhakad, Hon'ble Mr Ajay Verma, Mr Virendra Kumar Jain, Mrs Rekha Jain, appreciated Mr Prafull Jain (Trainer) to completion of workshop.

World Population Day

The World Population Day was observed across the globe on July 11, 2018 to focus attention on the urgency and importance of population issues. The theme of the World Population Day 2018 was 'Family Planning is a Human Right'.

SIP (Swachh Bharat)

The Students of the Institute visited Begumkheddi and created awareness about the benefits of various cleanliness programs run by the government on Central and Regional Levels amongst the villagers. The students taught how

staying clean and green can help in saving the environment. The students trained the villagers about the waste disposal management, and how the waste can be helpful for them. They educated about the bio-degradable and non- bio-degradable wastes, vermin-compost, etc. The students threw light upon various sanitation techniques and issues regarding women hygiene, daily hygiene, and diseases caused by the improper sanitation techniques.

The cleanliness drive and awareness campaign was being carried out by the students of Pioneer Institute of Professional Studies to aware the villagers about the precautions of the monsoon diseases like Dengue and Malaria. Students also conducted a baseline door to door campaign on Sanitation and Safe Drinking Water.

Awareness was been created against open defecation and other unhygienic practices prevailing in the village. The primary idea of the door to door campaign was to convey appropriate health messages for the targeted communities in the area.

World Population Day

There is a huge population explosion around the globe. It is reported that every 12 years, another billion people are added to the globe's population."

Keeping this in mind the 'World Population Day' was observed on 7th of November, 2018, which provided the opportunity to highlight these facts. At the Institute the issue of growing global society was addressed. The seminar was addressed by Mr. Suresh Vaish wherein he expressed a deep concern and care for the healthy growth and safety of human race. He stated that the consequences of population explosion included food and water shortage, war and social conflict and depletion of natural resources.

The Institute was extremely contented to see the active participation by students in the seminar and to hear the concern of young generation towards 'population explosion' during question-answer round. Students stated that the purpose of conducting this activity is to spread awareness about the dire consequences of population explosion. The natural resources may deplete, if there would be huge growth in population and so it is we who need to serve humanity by encouraging sustainable development through judicious use of natural resources. The activity was considerably a successful one.

7 Days NSS Camp from 4 February-10 February, 2018

The objective of this camp was to begin the interface with community, rapport building with community members and developing understanding of the village keeping in view the rationale of village adoption i.e. develop long term institutional relation with the community and contribution to the up-liftment of people therein.

Every year, the Institute conducts Seven Days Camp to any village nearby.

Through this activity, the students are able to understand the community, understand themselves in relation to their community, identify the needs and problems of the community and involve them in problem solving process, develop among themselves a sense of social and civic responsibility and utilize their knowledge in finding practical solutions to individual and community problems.

The students are able to develop competence required for group living and sharing of responsibilities and gaining skills in mobilizing community participation. They learn to acquire leadership qualities and democratic attitude along with practicing national integration and social harmony.

Swachh Bharat Abhiyan Pledge was directed by students and community people. Various awareness programs were organized to aware them. Skit was performed on Swachh Bharat Abhiyan by NSS Volunteers at Pivdai and nearby slum area. Every day few hours were devoted by Volunteers on cleanliness by the NSS Volunteers. Door to Door campaign was conducted by the students in village to aware families about Cleanliness Drive in the

Village. A talk on waste management was also organized.

The Major Activities that were outlined for the Camp was meeting with villagers and resource persons, visiting schools, spreading awareness on Women Health etc.

Volunteers created awareness through door to door campaign on cleanliness, spread of diseases, and importance of environment and judicious use of Electricity, water harvesting and importance of ground water. After taking dinner volunteers discussed the project agenda and activities with NSS programme officer Mr. Suresh Vaish, each day and sang the NSS song.

The volunteers divided themselves into sub groups and went into the streets, lanes of the village and organized a cleanliness drive. Volunteers cleaned the village roads, removed dust heaps and cleared the stagnant flows and attempted to create awareness on cleanliness and hygiene. They swept with brooms on the roads of the village. Local people showed their interest and awareness about this issue and spread in the community.

Workshop on waste management, road safety, exploring and awareness on effective farming methods and women health awareness turned out to be very effective.

Promotion rally was organized in the village; Literacy drive in village was also conducted. The volunteers formed groups concerned with many aspects of rural life like Rural Skill, Rural health care and sanitation, Bio and Natural Resources, Education, Socio Cultural and Economic aspects etc.

Importance of Education was one of the main agenda. The community was made aware on the importance of education and how it could shape their future.

Volunteers have given their report on what they have learned in the special camp. And during learning process in what way they made the people aware of many issues like diseases and disasters.

The objective of this camp was to begin the interface with community, rapport building with community members and developing understanding of the village keeping in view the rationale of village adoption i.e. develop long term institutional relation with the community and contribution to the upliftment of people therein.

OUTCOME:

The students were able to understand the community, understand themselves in relation to their community, identify the needs and problems of the community and involve them in problem solving process, develop among themselves a sense of social and civic responsibility and utilize their knowledge in finding practical solutions to individual and community problems.

The students were able to develop competence required for group living and sharing of responsibilities and gaining skills in mobilizing community participation. They learned to acquire leadership qualities and democratic attitude along with practicing national integration and social harmony.

Name of the Cadets who worked distinctively during the Camp:

1. Kunal Sharma
2. Shekhar Solanki
3. Tanishq Vijayvargiya
4. Sachin Jadav
5. Nayan Agrawal
6. Abhishek Chouhan
7. Suneel Yadav

NSS [THE NATIONAL SERVICE SCHEME]

NSS is an Indian government sponsored public service program conducted by the department of youth affairs and sports of the government of India. It was launched on 1969. Aimed at developing student personality through community service. NSS is a voluntary association of young people in colleges, universities at +2

levels working for a campus community linkage

On Feb 4 2018, Pioneer Institute of Professional Studies conducted NSS program with 23 enthusiastic cadets (students) at a small village of Indore name Pivdai, Tehsil Compel.

Students represented with the “OATH OF SANITATION”. Our cadet begin very first task of NSS program like campus cleaning, settlement of calmness around dwelling places.

The students took responsibility to work as a key people to promote fraternity, amity and philanthropy among all the cadets to the villagers. The days included “PRABHAT FERI” with NSS songs and slogans.

The Second day of the camp also began with PRABAHT FERI AND PT

It was very first direct interaction of NSS cadets and villagers of Pivdai with the help of physical morning exercise cadet relax there body. At the same time tasks were been provided to students of the day. The foremost aim and task was to free the environment from plastic and filth. The cadets demonstrated there herculean efforts and unity to save environment from plastic and all dirt’s. It was not easy to clean dwelling environment but cadet showed there unity to clean it and they learned about the power of unity. After the lunch, the cadets took and break and then it was the time for interaction with villagers of Pivdai at evening.

Day 3

Ground leveling was the first task of the day 3 of the NSS Camp and cadets reveal their full potential to windup the task. Students enjoyed daal bati as dinner of the day.

Routine of Day 4

The routine of the day was also the same but on day 4, the cadets met the villagers for the invitation of next day’s program. Also some cadets took responsibility to hear to the basic problems of villagers including the illiteracy and lack of awareness.

Cadets also attended the lecture given by the Member of Panchayat on bio-manure on day 4, and students were astonished to listen his lecture when they told about the easy and effective procedure of preparation of the bio-manure in the fields itself.

Routine of Day 5

The Routine of Day 5 also started with “PRABHAT FERI” in the morning followed by exercise, Zumba, and Suryanamaskar. On the day 5, the cadets visited the village school, Anganvadi to promote awareness related to women empowerment, poverty and the development of the children in the rural areas.

Students conducted census related to literacy in a particular house. The main focus was to make people aware about the same.

The Cadets also created awareness amongst the villagers about the diseases caused due to contaminated potable water, edible food, sewage treatment also defection.

After the special lunch, students took part in the debate, the topics were Digital India, Clean India Mission etc. The Day 5 of Cadets ended with the outdoor games at evening.

Day 6

The Morning Schedule was almost the same but on the day 6; the task was to free residential environment from weeds. After lunch a short conversation about the importance and the role of NSS was held. At evening the cadets interacted with villagers who were pleased to convey the cadets about the water level and the number of wells present in Pivdai to supply the water emoluments. At the same time cadets helped a local farmer to fix his tube well. The day ended with a camp fire.

Day 7

The last day of the camp started with “PRABHAT FERİ”, exercise and Surya Namaskar. After that, an interaction and feedback was taken from the villagers on the NSS. Students returned to the Institute, Indore and reported about the Camp to the NSS Co-coordinator and the Principal.

NSS camp was full of ecstasy, unity of command, amity, and fraternity with fulfillment of the objective “Student Personality Development through Community Service”.

Daily Time-Table

TIME	ACTIVITY
6:00 AM	Wake Up
6:00 AM TO 6:45 AM	Routine Activity
7:00 AM TO 8:15 AM	Prabhat Feri
8:15 AM TO 09:00 AM	Morning PT And Surya Namaskar
09:15 AM TO 10 AM	Breakfast And Tea
10:00 AM TO 10:30 AM	Bath
10:30 AM TO 1 PM	Task
1:15 PM TO 1:45 PM	Lunch
2:00 PM TO 5:00 PM	Indoor Activity short Nap
5:15 PM TO 6:00 PM	Outdoor Sports
6:15 PM TO 7:00 PM	Interaction And Inspection Of Task
7:15 PM TO 8:00 PM	Dinner
8:00 PM TO 10:00 PM	Coterie
10:00 PM	Sleep

The event was coordinated by the NSS Officer Mr. Suresh Vaish, and co-coordinated by Mr. Mridul Tiwari.

EXTRA CURRICULAR ACTIVITIES

Yellow Day Celebration

Shades of Yellow Stimulates Happiness, Energy and Optimism.

On 22nd January, 2018 at Pioneer Institute we celebrated Yellow Day to mark the Onset of Spring Season.

Yellow colour is the colour of wisdom, intelligence and positive energy. This Day was celebrated by all the students and faculty members. Everyone was dressed up in Yellow colour because it is the colour of sunshine.

On this day various types of Games were played related to yellow Colour by the students. Students enjoyed this day and participated in activities. They performed Singing and Dancing activities. Ms. Yellow and Mr. Yellow were identified by the judges on the basis of their knowledge about the day and color and their dress-up. Miss Sruthi Sutar (MBA II) was selected as Miss Yellow and Mr. Abhishekh Jain from BBA VI was selected as Mr. Yellow of the Day.

Finally the day ended with Selfies alongwith the yellow frames designed especially for the day.

Basant Panchmi is an occasion which marks the advent of the spring season. This day was celebrated in our Institute with great fervor and enthusiasm. Yellow colour – representative of spiritual knowledge, is given importance on Basant Panchmi.

The event was coordinated by Ms. Kumkum Sinha and co-coordinated by Dr. Tanu Srivastava.

Sham-e-Ghazal (Ghazal Night)

On 2 February, 2018, Ghazal Night was organized in the Institute.

No matter how many English books we read, some things are best articulated in our mother tongue. Hindi and Urdu Literature is full of reflective and profound lines, quotes and shayaris to go with every status quo in our life. The Institute witnessed this possibility of summing up life's sensibilities on this day.

It was a pleasurable flight into the world of ghazals. The atmosphere provided the right mood and the elite audience were delighted. The shayari's were like melodies and were like pearls out of the sea. The style of singing a ghazal with classic elegance, picking up a popular notes in different mood enabled everyone to glean the distinctions, was very educative and correspondingly pleasant.

In worship to the favourite themes, the artists made it a point to render the most beautiful pieces in various types of melodious themes. Few artists made the audience go into raptures and created waves as garland in the sweetest of tones purified.

Poetic sampling, with a mixture of emotions devoted to romance, patriotism and values, the artists touched the soul of the audience which in turn melted the winter cold hearts in the month of February.

The amazing and versatile metaphor, allegory, comparison and representation were mind-boggling in its romantic allusions rendered in the most controlled tones by Shayari, through myriad ways of describing the visualization, the expression, the countenance and so on.

The artists literally pictured the poetries which mounted stark in front of our eyes.

The evening of ghazals was organized by students and conducted by Mayank Patidar, a Pioneering Student of BBA VI Semester. He went to regale and amuse the poetic intoxicated listeners through and with the lyrics penned by great poets and artists themselves.

CONVOCATION & ALUMINI MEET

Pioneer Institute of Professional Studies, Indore organized the Convocation (Graduation) ceremony of batch 2016-18 PG and 2015-18 UG Batch on 11th February, 2018. The objective of organizing the ceremony was to give an opportunity to all graduated students to come back to college once again, relive their old memories and get connected with the institution.

All the graduated alumni were welcomed by junior students. Dr. CA P. K. Jain, Principal and Dr. Mona Tawar, Director welcomed all the students and congratulated them and wished them for their successful career and asked them to have better association with college through Alumni Association.

Dr. Jain highlighted the importance and role of Alumni members in creating better opportunities for current students. He motivated students to perform better in their career. He advised students to focus on skill development and enhance their interpersonal skills.

The event was coordinated by Ms. Kumkum Sinha.

UDBHAV-2018

Annual function is the most important event in the Institute calendar because the students are excited for it year round. On 1st April 2018, Pioneer Institute organized the annual function UBHAV-2018.

Ms. Ashi Jain of BBA final year started the program by welcoming the *Chief Guest-Shri PC Jain*, Dr. P. K. Jain, Dr. Prashant Jain, Dr. Mona Tawar, Dr. Isha Jain, Mrs. Anshu Jain, Mrs. Poonam Thakur, Mr. Anurag Tagde, Mr. Dilip Singh Thakur, Mr. Abhinay Kesharwani, faculty and staff members of Pioneer Group, parents, students and others.

Further, Dr. Mona Tawar gave a welcome speech.

Then after Dr. P. K. Jain announced the start of annual function.

The program started with a very inspiring and emotional performance of special children of Anubhuti NGO who

performed bhajans like “Ek Radha Ek Meera”, “Satyam Shivam Sundaram”. And many more. The unique quality of these special children inspired everyone in the program. They taught us how to lead a life of self-esteem and self-respect despite of whatever may come our way. Then a rocking performance by a rock band filled each heart with energy and electricity. The students started cheering up and singing along with the performers. The anchoring was further continued by Ms. Jahnvi Dubey of BCA 2nd year. Sixty-two intercollegiate performances were witnessed by the audience thereafter. Many students performed on the stage. Most of the programs were inspired by our culture, moral education, films, and nationalism. This added the all new height to the function. To add to such an aura, rock band performance by Mr. Vishal Gautam and the group graced the occasion further. The singers and dancers from different colleges of Indore, Dewas, Mhow, Ujjain and the nearby regions added the spices to the auspicious occasion. The performances were been judged by Mr. Vishwas Sharma and Mr. Anurag Tagde on various parameters. The anchoring was taken over by Mr. Akshay Kharnal of MBA. Few poets and shayars like Gaurav Gargsar, Vikash Kumar, Mayank Patidar also performed in the function. The judges, guests, parents and performers were served with refreshments. Photography and videography was taken care by Mr. Sohail Khan, Mr. Nikhil Patidar and Mr. Yashoo Mishra. Media coverage was done by Mr. Anurag Tagde. The sponsors were thanked by the Principal at the end of all the performances. Dj ASHU (Indore) played for the audience at the end and the floor was left open for the audience to dance. A vote of thanks was given at the end by Mr. P. K. Jain. He emphasized the need for over all development of the students which is possible only by polishing talent among the students and providing platforms (like UDBHAV) on timely basis to the students. After this came the main part of the function, the prize distribution ceremony. Principal Sir announced the winners of the eve. The categories were Dance (Solo, Duet and Group), Singing (Solo and Duet) and Rock band. He congratulated the winners and gave a message to other performers about how essential there performances were. He invited the chief guest, Shri P. C. Jain to distribute prizes among the winners. Chief Guest also addressed the audience. He praised the performances. Finally Dr. Mona Tawar ended the program with her thanks speech. She thanked the Chief Guest, Principal, Chairman of Pioneer Institute. She also thanked all the Principals, Staff and Faculty Members of the Pioneer Group, parents of the students of Pioneer Institute for attending the function. She acknowledged the precious contribution of the sponsors. She appreciated the hard work of the faculty members and volunteers involved in the arrangements since one month. The program was very energizing and all the participants and audience enjoyed it thoroughly.

EXAMINATION-2018

The examination for all the courses following both CBCS Pattern and Yearly Pattern was held in the month of March-April 2018.

BBA, MBA, and BCA programmes of Pioneer Institute follow CBCS System of Exams. B.Sc. (Computer Science), B.Com (Tax/CA/P) follow the yearly pattern of exams. The total credits are given as recommended by Board of Studies and approved by the Academic Council and adhere to the distribution of continuous evaluation and term end examination prescribed in the approved programme structure.

University Grants Commission has come up with the Choice Based Credit System (CBCS) programme in which the students have a choice to choose from the prescribed courses, which are referred as core, elective or minor or soft skill courses and they can learn at their own pace and the entire assessment is graded-based on a credit system. The basic idea is to look into the needs of the students so as to keep up-to-date with development of higher education in India and abroad. CBCS aims to redefine the curriculum keeping pace with the liberalization and globalization in education. CBCS allows students an easy mode of mobility to various educational institutions

spread across the world along with the facility of transfer of credits earned by students.

Features of CBCS

- This is a uniform CBCS for all central and state and other recognized universities.
- There are three main courses: Core, Elective and Foundation.
- There are also non-credit courses available which will be assessed as ‘Satisfactory’ or ‘Unsatisfactory’. This is not included in the computation of SGPA/CGPA.
- All the three main courses will be evaluated and accessed to provide for an effective and balanced result.

CBCS has the following basic elements:

- **Semesters:** The assessment is done semester wise. A student progresses on the basis of the courses taken rather than time like three years for science, arts, commerce or four years for engineering etc. Each semester will have 15–18 weeks of academic work which is equal to 90 teaching days. There is flexibility in creating the curriculum and assigning credits based on the course content and hours of teaching.
- **Credit system:** Each course is assigned a certain credit. When the student passes that course, he earns the credits which are based on that course. If a student passes a single course in a semester, he does not have to repeat that course later. The students can earn credits according to his pace.
- **Credit transfer:** If for some reasons, he cannot cope with the study load or if he falls sick, he has the freedom to study fewer courses and earn fewer credits and he can compensate this in the next semester.
- **Comprehensive continuous assessment:** There is a continuous evaluation of the student not only by the teachers but also by the student himself.
- **Grading:** UGC has introduced a 10-point grading system as follows:

O (Outstanding): 10

A+ (Excellent): 9

A (Very Good): 8

B+ (Good): 7

B (Above Average): 6

C (Average): 5

P (Pass): 4

F (Fail): 0

Ab (Absent): 0

Credit Counting

One credit per semester is equal to one hour of teaching, which includes both lecture (L) or tutorial (T) or two hours of practical work/field work (P) per week. A study course can have only L component or only T or P component or combination of any two or all the three components. The total credits earned by a student for each semester is L+T+P.

In compliance with the global grading system

All the major higher education institutions across the world are implementing a system of credits. For instance, we have the European Credit Transfer System (ECTS) in Europe’s universities, the ‘National Qualifications Framework’ in Australia. There is the Pan-Canadian Protocol on the Transferability of University Credits. In the UK, we have the Credit Accumulation and Transfer System (CATS). Even the systems operating in the US, Japan, etc. are based on credit system.

Advantages of Choice Based Credit System

- The CBCS offers a ‘cafeteria’ approach in which the students can choose courses of their own choice.
- The credit system allows a student to study what he prefers in his own sequence as per his interests.
- They can learn at their own pace.
- They can opt for additional courses and can achieve more than the required credits.

- They can also opt for an interdisciplinary approach to learning.
- Inter college/university migration within the country and outside becomes easy with the transfer of Credits. This means that it will be easier for foreign universities to come and offer courses in India.
- Can opt for one part of the course in one institute and the other part in another institute. This will help in making a clear choice between good and bad colleges/ institutes.
- The students have more scope to enhance their skills and more scope of taking up projects and assignments, vocational training, including entrepreneurship.
- The system improves the job opportunities of students.
- The system will help in enabling potential employers assess the performance of students on a scientific scale.

Grievances

Students may have grievances regarding result of term end examination declared by the Institute. In this event they can apply for *reevaluation* and subsequently *review of answer scripts*.

Certificate Distribution

The students who excelled in different activities and sports events and UDBHAV during the session were awarded with certificates and medals on 7th April 2018.

Among the awardees were the Volunteers, Core Committee members, NSS volunteers, best student in cultural events, etc.

In all about 150 certificates and 36 medals were awarded to the students.

Principal Dr. P. K. Jain said that it always feels great when one's efforts are recognized and this motivates one to strive for higher achievements in life. At Pioneer Institute, the efforts of each individual are appreciated. He reminded them that these certificates and medals are memories of the college and will remain with them throughout their lives.

Dr. Jain urged the students to work hard and try to achieve greater goals in academics and other areas and be role models and ambassadors of the college.

Some of the students shared their experiences in the college.

The programme was conducted by Mr. Mayank Patidar and Mr. Tanishq Vijayvargiya, students of BBA Final Year.

In the end, Dr. Mona Tawar, Director, Pioneer Institute presented vote of thanks.

ISSUES TREATED BY YOGA THERAPY

Yoga therapy is a growing field and scientific evidence has begun to emphasize its efficacy. It is used to treat existing mental and physical health issues, but can also be used as a self-care strategy for prevention and maintenance.

Yoga therapy is well established as a treatment for depression and anxiety. A meta-analysis cited in the Primary Care Companion for CNS Disorders found that yoga therapy also shows promise for the treatment of posttraumatic stress (PTSD) and schizophrenia. Additionally, yoga therapists have begun to develop treatment modalities to suit children with autism. The book *Yoga Therapy for Children with Autism and Special Needs*, written in 2013 by yoga teacher Louise Goldberg, is already considered a critical text for novice and experienced yoga therapists alike.

According to a 2012 article in *Social Work Today* magazine, yoga therapy is also emerging as an effective treatment for substance abuse issues. Mental health professionals point out the way yoga positively impacts the parts of the mind and body susceptible to addiction. Studies have shown that yoga boosts

the neurotransmitter GABA (gamma-aminobutyric acid), which is important because GABA levels are statistically low in people who experience substance abuse, anxiety, and depression.

Because of its concentration on mind and body integration, yoga therapy is also used to address many physical health issues. It has been effectively used to treat back pain, heart conditions, asthma, chronic fatigue, hypertension, multiple sclerosis, and side effects of chemotherapy.

PRACTICE AND BENEFITS OF YOGA THERAPY

Yoga therapy is practiced in a wide range of formats. Physical therapists, for example, often implement yoga techniques in their delivery of massage and other treatments. Yoga therapy practice can resemble physical therapy, rehabilitative therapy, and/or psychotherapy. Unlike a standard yoga class, yoga therapy sessions are typically conducted in one-on-one or small group settings. Yoga therapy can be provided as an adjunct therapy to complement other forms of treatment, or it can be used to directly treat a specific issue. Yoga techniques range from simple to advanced, and can be enjoyed by people of all ages.

Potential benefits from yoga therapy include stress reduction, psychological well-being, improved diet, and efficient functioning of bodily systems. A 2011 qualitative study from *Inkanyiso: Journal of Humanities and Social Sciences* examined the effects of yoga therapy on anxiety. The findings not only indicated that yoga therapy effectively reduced subjects' anxiety, but improvement across several dimensions of physical and mental health including physicality, relaxation, and mindfulness.

HISTORY OF YOGA THERAPY

Yoga therapy is rooted in the ancient practice of yoga, which originated thousands of years ago in India. Yoga made its way to the United States in the late 1800s, but yoga therapy emerged in a formal manner in the 1980s as the result of a study conducted by Dr. Dean Ornish. The study illustrated how the implementation of a healthy lifestyle program could reverse heart disease. Ornish's program included therapeutic yoga and was the first of its kind to highlight the benefits of using yoga in this way. This program for treating heart disease was approved for insurance coverage in 1990 and it marked the beginning of the medical field's acceptance of yoga as a treatment option.

In 1983, the Biomedical Yoga Trust was founded to further develop and standardize the field of yoga therapy. The International Association of Yoga Therapists (IAYT) was founded in 1989 and has since hosted yoga conferences, published the *Journal of the International Association of Yoga Therapists*, and contributed to the creation of yoga therapy training standards. Both organizations have facilitated research to explore the extent of yoga therapy's potential.

WHAT TO EXPECT FROM YOGA THERAPY

When a person decides to initiate yoga therapy, the therapist will first conduct an initial assessment. This assessment is designed to do the following:

- Identify health problems
- Assess lifestyle and physical capability

- Discuss reasons for seeking therapy

Create a course of treatment

Once the treatment plan is established in this first consultation, the frequency of sessions is agreed upon and sessions are scheduled. From this point, therapy sessions will most likely include the following components:

- **Breathing Exercises (Pranayama):** The therapist will guide the person in therapy through a series of breathing exercises ranging from energizing breaths to balancing breaths.
- **Physical Postures (Asana):** The therapist will teach the person in treatment appropriate yoga poses that address problem areas. For example, the “Legs Up the Wall” pose is used to treat things like anxiety and insomnia. In this pose, the person lays on his or her back with legs positioned up against the wall.
- **Meditation:** Relaxation and mindfulness are the focus of meditation when it is combined with yoga poses.
- **Guided Imagery:** The yoga therapist attempts to calm the body and mind by providing a guided visualization intended to bring inner peace.
- **Homework:** An important element for any yoga practice is to find a way to incorporate it into daily life. Yoga therapists provide instructions on how to use what has been learned in treatment at home.

WHO OFFERS YOGA THERAPY?

The most well-known professional title to describe a yoga therapist is Certified Yoga Therapist, credentialed as CYT. However, because the field of yoga therapy is fairly young, no official, formalized certification process exists. However, there are many organizations and education programs accredited by the IAYT that offer training and certification. Some well-respected training programs include:

- Integrative Yoga Therapy
- American Viniyoga Institute
- Essential Yoga Therapy
- Phoenix Rising Yoga Therapy
- YogaLife Institute
- Any training program accredited by the International Association of Yoga Therapists (IAYT)

Though therapists vary in education and experience, most well-trained yoga therapists have a strong knowledge base in:

- Yoga philosophy, techniques, and education
- Therapeutic yoga techniques
- Anatomy and physiology
- Diet and nutrition
- Basic understanding of medical care and first aid
- Basic understanding of business ethics

When deciding on a yoga therapist, it is important to know that there are many types. Some are yoga teachers, yogis, and gurus while others are psychotherapists, psychologists, and physical therapists. The Yoga Journal website suggests seeking out word-of-mouth referrals and yoga studio recommendations. The most crucial thing is

to find a therapist who has solid experience and training, and with whom you can develop a positive therapeutic relationship.

Independence Day Celebration

Pioneer Institute of Professional Studies, Indore celebrated Independence Day on 15th August 2018, with great enthusiasm and respect. The ceremony started at 8:30 AM .

The Principal and Director unfurled the tricolour flag and all in unison sang the National Anthem and expressed the joy of our freedom. The March Past by the students of College was the highlight of the day. The celebration continued with patriotic songs and dance performances by the students. The students expressed their sentiments and aspirations for the country through English and Hindi speeches. The Principal, Pioneer Institute of Professional Studies, in his speech urged the students to take the pledge towards a Clean India, Poverty-free India, Corruption-free India, Terrorism-free India, Communalism-free India to commemorate the sovereignty of our nation. Indeed, it was a day of joy, a day to love and respect our country and make it a better place for Indians to live and experience the freedom, peace and unity in diversity.

Independence Day on August 15th is celebrated every year across the nation. The moment will not only be celebrated in governmental offices, but also in schools and colleges as well. The National Day is followed since 1947. Independence Day Celebration In Educational Institutions Flag hoisting ceremonies and cultural programs take place in governmental and non-governmental institutions throughout the country. Schools and colleges conduct flag hoisting ceremonies and cultural events. Major government buildings are often adorned with strings of lights. A week before the day of celebration, students enjoy the time of preparation they spend in college. Skipping classes during practice may be a part of their happiness, but they are over excited in preparing themselves for the performances too. They spend more than half-a-day in school practicing for march-past, speech, dance, sports, cultural activities and more

Mentors Meeting

The Institute organized “Mentor Mentee Meet” on 16/08/18. The objective of this meet was to provide a common platform to the students to have an open interaction with the alums who are working in various companies at good positions. The meet started with the lighting of lamp by the Dr. Mona Tawar, Director, Dr. Isha Jain and all the invited mentors. Dr. Tanu Srivastava welcomed the mentors and mentees and elaborated the significance of “mentor-mentee” relationship in career. Further, Dr. Shweta Mogre explained the objective of this meet to the participants and highlighted the immediate and long-term benefits which mentees can get if they utilize this platform to the maximum. The mentors one by one gave their introduction and gave brief insights on current need of the HR industry.

An activity named “My Managerial Grid” was conducted. The aim of this activity was to understand the level of capabilities a mentee possesses to excel in the role of a manager. Based on the mentees’ responses the mentors gave their inputs and gave some tips to the mentees on how they can nurture their overall capabilities. The students also discussed some queries/incidents related to their ongoing Internship.

Overall the session was very interactive. The mentors educated the mentees with very useful guidance which will help them to prepare for the ultimate corporate exposure. The mentees also made most of this opportunity.

Induction Program

When new students enter an institution, they come with diverse thoughts, backgrounds and preparations. It is important to help them adjust to the new environment and inculcate in them the ethos of the institution with a

sense of larger purpose. The Induction Program is designed to make the newly joined students feel comfortable, sensitize them towards exploring their academic interests and activities, reducing competition and making them work for excellence, promote bonding within them, build relations between teachers and students, give a broader view of life, and building of character.

With the above vision Pioneer Institute of Professional; Studies, Indore conducted a 2 day (i.e 31th August – 1st September 2017) Induction Program for the new joiners. The Program was organized for UG I and MBA I and was witnessed by UG III, UG V and MBA III Students along with Faculty and Staff Members.

The Program started at 8:30 A.M. with the lightening of Lamp and was followed by a tribute given to Dr. Kalam.

Day 1 i.e. 31th August was a formal gathering where in the new joiners were introduced to the Institution with the help of an Institution Presentation. After this various Mentors were introduced and they helped the students know the institutional culture like the discipline that is to be maintained in the premises, uniform system, class timings, examination pattern, mentoring system, extracurricular activities etc.

Students were also told about the norms of Anti Ragging, Online submission of Fees and the different cells that are functional in the institution for their betterment like women empowerment, Social Cell, Grievance Handling Cell etc. This was further followed by introducing the faculty and staff members to the aspiring students. The day ended with the announcement that on 1th September it's time for the new joiners to reveal their talents as the entire day was dedicated for EDC (Entrepreneurship Development Cell) ACTIVITY. All the students came in Traditional Outfits and were well prepared with their respective performances. The day started with Competition among seniors and juniors. Various Talent Hunt Competitions such as Solo Dance, Group Dance, Solo Song, Group Song, Mimicry, Shayari, Poem etc. were held. Students came beautifully dresses in their traditional outfits. Various prizes were given to the new faces such as Best Song, Best Dance, Best Shayar, Active Performer of the Day, Best Selfie Club, Best Dress, Best Smile and Best Face of the Year.

Day 2 that is 1th September 2017 was EDC day for the students. The entire day was devoted for EDC Cell were students came up with various business ideas and put up stalls of the same. This activity was conducted with the vision of developing entrepreneurial skill of the students. Here many hidden talents were appreciated for the efforts they had put in by acknowledging them with prizes such as Maximum Sale, Minimum Investment, Team Effort, The Best Marketers etc.

Teacher Day

To mark the great Teacher & Philosophyist, Dr Sarvapalli Radhakrishnan's Birthday, Teachers Day was observed and celebrated at the Institute on September 05, 2018 at 2.00 p.m. Both the students & staff of the Institute gathered joyfully for the celebration.

The function was inaugurated with lamp lighting by Dr. P.K. Jain, Dr.Mona Tawar and Dr.Prashant Jain. The program commenced with seeking blessing from god by Saraswati Vandana, followed by welcome skit and this high lightened the importance of teachers in one's life.

The students had organized a number of fun games for the teachers which were thoroughly enjoyed and appreciated. The dance performance by Megha from B.B.A (Sem III) was very graceful and greatly enjoyed by all. The programme ended with cake cutting ceremony after which snacks were distributed among all. The Director and faculty members were overwhelmed by the efforts and love shown by the students.

Yog Shivir by Amrita University

On 11th September, 2018 and 14th September, 2018 Yog Shivir was organized by Pioneer Institute, held by Amrita University, Kerala.

Yoga's motto is simple: a healthy mind inside of a healthy body. This stands for a lot of what yoga can do for you, including helping you to let go of stress, help the pain in your back or other areas of your body, and even help you shave off a few extra pounds. Yoga allows the yogi to concentrate their body and soul into one, performing the act as one individual that is sure to meet your needs. By creating a perfect harmony with your body, yoga can help you self-heal, remove toxins from your body and mind, increase your awareness in yourself, and even help your attention and focus.

A yoga and meditation workshop was organized for two days at Pioneer Institute of Professional Studies on September 11th and 14th, 2018. Mr. Narinder Anand along with Ms. Shweta from Amrita University, Kerala came to address the students on the benefits of Yoga and meditation. Mr. Kailash Kalinker from the Indore centre was also along with them.

Yoga is important for all but it's hard to deny the unique aspect of centering the body and mind that yoga allows the yogi to experience. It keeps you relaxed by shoving out the stress and anxiety when you achieve the mind space that you are supposed to be in. On top of that, yoga is proven to allow your muscles to grow longer and leaner, creating the desired shape you've been dying to achieve. Since yoga teaches you how to breathe, you're accomplishing the weight loss while working yourself toward a better you, something everybody should experience first-hand.

On top of that, yoga encourages your body to become more flexible, which results in a happier and healthier you. Your blood will start to flow more, and you will literally glow. Ask anybody who practices yoga and they will tell you they couldn't live without it. By practicing yoga for fifteen minutes a day, you're getting your blood pumping and moving in the way it's supposed to, generating the happy vibes you want inside of your veins.

One of the greatest resources that yoga gives us is the ability to take a deep breath and learn to slow down. Today's world is obsessed with speed; the faster you go, the faster you are, the faster the world can generate around you. This is a very harmful habit for us, as our mind space and bodies are meant to come together as one, and that process can take time. Yoga delivers a sort of meditation that allows you to slowly come together as one, creating a 'stop and smell the roses' effect that benefits everybody who tries it.

Whether you're on the hunt for your inner voice, want to lose some weight and connect yourself all at once, or are finally listening to the voices of yogi's begging you to try it, yoga is one of the most important daily activities and will change your life forever.

The people who participate in the meditation **learn the art of inner balance, self-confidence and lasting happiness. The integrated Amrita mediation techniques was taught to the students who participated in the session.** Integrated Amrita Meditation Technique is a powerful practice synthesized by the world-renowned spiritual leader and humanitarian Sri Mata Amritanandamayi, affectionately called "Amma". IAM practice helps people find fulfillment in life.

The meditation technique introduced here is called 'Integrated Amrita Meditation Technique'® because its goal is the integration of body, breath, and mind. It is a combination of Relaxing yogic stretches, breathing and concentration exercises and takes only 30 minutes a day. IAM is a suitable practice for people of all faiths; it is not bound to any religious or spiritual belief system. Meditation is the art of mental mastery. How we perceive the world around us completely depends upon our mind. In our search for happiness, we essentially have two options — modify the entire world so that everything turns out exactly the way we want, or modify our mind so we're happy, content and peaceful, regardless of what happens in the external world. The former is obviously impossible. We have very little control over our external world. The only hope for happiness lies in controlling the inner world. Meditation is a key element in this process. The event Ayudh being organized at Amrita University every year is a stepping stone for the students to know their hidden talent, their abilities and the innate strengths. The program was coordinated by Ms. Kumkum Sinha. All Students and all Faculty of Pioneer Institute attended it.

Dandiya

On October 15th, 2018 the Institute organized Dandiya night coordinated by the Core and Cultural Committee 2018. More than 150 students enjoyed the DJ on the theme Dandiya. The magnificent aura created by the music and lights contributed to the success of the program. The event was graced by the presence of Group Chairperson Dr. Prashant Jain, Director Dr. Mona Tawar.

The event went live on several social media and was the talk of the town. Prizes were also given out to Best Male & Female Dancer with Best Male & Female Costume. The entire event was organized and coordinated by the strong team work of Core and Cultural Committee Members

The Inaugural Ceremony of 'Pioneer International School' took place on Sunday, January 7th, 2018 at Sonkatch, Madhya Pradesh. The Inaugural of the school was done by Hon'ble Shri. P.C. Jain, Founder, 'Pioneer Group'. Further the program was hosted by Mr. Anurag Tagde, Director, Administration, Pioneer Group.

He started the program by showing a small documentary on Sonkatch that covered major markets, temples and river view of the area. It was followed by a brief welcome note delivered by Hon'ble Dr. CA Prashant Jain, Executive Director, Pioneer Institute.

The program started with Ganesh Vandana which was performed by Vishal Gautam, a student of MBA II Semester and it was followed by the *Lighting of Lamp* by all Dignitaries.

Our Group Heads Inaugurated the Primary Section of 'Pioneer International School' and all the eminent guests were welcomed to the premises of Pioneer International School. A brief address was given by Hon'ble Shri. P.C. Jain Sir after which Hon'ble Dr. CA Prashant Jain gave a brief description of the story behind coming up with 'Pioneer International School' at Sonkatch.

Hon'ble Dr. CA Pramod Jain took over the stage. He mentioned that quality education is necessary at 'Tehseel' level and the schooling of girls has become a big issue, particularly for people from rural areas. He said the overall development of a child is a group effort. He committed to open a facilitation centre in the school shortly to address the problems of parents and to provide scholarship benefits to school children.

This was followed by a brief address by Hon'ble Mr. Akash Jain, Principal 'Pioneer International School'.

Hon'ble Dr. Zamin Hussain, DG Rotary Club and renowned Senior Doctor of Sonkatch took the stage. In his speech, he said that if areas like education and health will fail, the society will drown. He mentioned that Education should be given free of cost and should focus on moral values. He said that people have become self-centred because they only concentrate on themselves and that he is hopeful that children of 'Pioneer International School' will grow as good citizens besides holding good designations. He congratulated Pioneer Group for the initiative.

Further the program was addressed by Hon'ble Shri. Satyanarayan Lathi, who is a renowned Advocate of Sonkatch. He appreciated the step taken by Dr CA P.K. Jain for coming up with a school in rural area like Sonkatch. He emphasized that value education is the basic necessity of the hour and Pioneer International School is one of the school which has initiated to deliver the same for Sonkatch aspirants. He further added that there are many students in Sonkatch who are keen to learn and deserving also but the only issue is they are lacking with opportunities. Now I firmly believe that these budding talents will fly high and represent Sonkatch. Pioneer International School will act as a platform to bridge the gap.

It was followed by a brief address by Hon'ble Mr. Vijayshankar Trivedi. He highlighted that school plays an important role in the recognition of a person and many reputed personalities are known by their school. He wished Pioneer Group to grow and prosper in the near future.

The speech was followed by a floral welcome of HDFC, Deputy General Manager, Mr. Vinayak Parkhi and Ms. Kalki Raje from *News 24* by Dr. CA Pramod Jain.

Pioneer Group's initiated a newspaper '*Rashtriya Pioneer Pride*' which was then inaugurated by the dignified

guests and a small e-presentation of newspaper was shown.

The program moved on with the presentation by Hon'ble Dr. CA. Prashant Jain on the Pioneer group. He highlighted the courses offered by Pioneer Institute and the past placements of students in renowned companies. He surprised the public present over there saying that 'Pioneer International School' will have bag less schooling and no homework will be given to the children. He mentioned about a remarkable feature of the school and also introduced a 'Robot' which signifies the use of modern technology used to teach and groom students. He said the focus of the school is on 'behavioural education', we promise to educate students by departing value based education.

After his presentation, Hon'ble Mrs. Anshu Jain inaugurated the website of 'Pioneer International School'.

Further Hon'ble Mr. Akash Jain, Principal, Pioneer International School addressed the gathering. Mainly he pointed out the basic features of education system, which is care, commitment and creativity. According to him all three features should be present in an education system. After this he promised to fulfill the various commitments made by Pioneer International School. He also told there is lot of talent in Sonkatch but they don't get right direction. Here is an open opportunity for them to get associated with Pioneer group and excel. He will try to support, care and give shape to the talents in right way.

The programme moved on by welcome of Hon'ble Dr Asha Mathur (Former IG Bhopal), she addressed the gathering and expressed her happiness on witnessing the auspicious occasion.

She started her address with the lines '**ANDHAKAAR SE PRAKASH KE AUR**' people should think about it. She also focused on moral education and said schools are that place where children learn and develop good things. At the end she blessed all the efforts of team success and prayed for a promising future ahead.

In the end, felicitation ceremony of Hon'ble Mr S.C. Trivedi was witnessed to acknowledge his remarkable contribution towards Pioneer Group. He has served since past 20 years and for the same a Certificate of Excellence was given to him.

Finally the program ended with dinner and group photographs.

The rapporteur were Dr. Tanu Srivastava and CA Deepti Anchaliya.

The event was coordinated by all the Faculty and Staff members of Pioneer Institute, Pioneer Public School and Pioneer Convent School.
